

Invites you to participate in the

Midland MH&A Family Whānau Competency Framework Workshop

Facilitator: Sue Lewer

Currently there is no national consistent competencies framework for family whanau workers or professional body accountability and or code of conduct. Job descriptions, job roles and accountabilities are varied dependant on the interpretation of the new service specifications. The lack of national baseline competency frameworks and guidelines for employment and best practice hinder the development and quality consistency of this workforce.

This workshop relies on the Family Whanau workforce to assist in guiding the development of the Midland MH&A Family Whanau Competency Framework.

Who better to have a say than those that walk the talk...

This framework will have an impact on your role...

Your feedback is important...

Come along and have your say...

Date	Time	Where
Tuesday, 23 July 13	1.00pm	73 Titiraupenga Street Taupo
